

PYSNORTLINGS 2.0 HIGH LEVEL OVERVIEW

Source IP:172.31.3.7

Source Ports: Random Ephimeral
Ports(32768-60999)

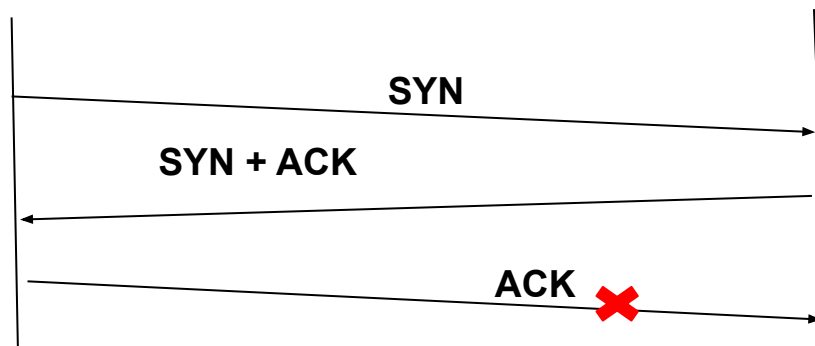

Dest. IP: 172.31.15.86

Dest. Port: 1013

client

server

Client sends a flood of SYN packets and Server sends SYN-ACK for every SYN packet, waiting for the ACK to open a connection. But it never happens, resulting in keeping the server unnecessarily busy and not serving legitimate connections.
